Resolved: Known Issue   - KI9.2-54_PO Monitor Approvals: Workflow Not Updated When Reqs & POs Reassigned

UPDATED: April 5, 2019

STATUS: Resolved

NAVIGATION: Enterprise Components > Approvals > Approvals > Monitor Approvals

Following Release 5.20, users who attempted to reassign Requisitions and Purchase Orders to another Approver using Monitor Approvals found that Workflow did not update and the transaction remained assigned to the original Approver.

Although the system showed 'Reassignment Successful' afea4essonly for attempted Reassignment. U
         successfully Approve or Deny transactions from the page (EOAW_ADM_MON_SRC).

   RESOLUTION: Release 5.40 resolved the issue of workflows not updating when
   Requisitions or Purchase Orders were reassigned.
